INNOVATION & DESIGN TO MAXIMISE COMFORT

Rollease Acmeda is committed to innovation and development that benefit consumers in meaningful ways.

Our Innovation & Design Centre in Melbourne, Australia leverages the knowledge and experience of over 20 engineers, designers, technicians and product managers to conceptualise, develop and test new technologies and designs.

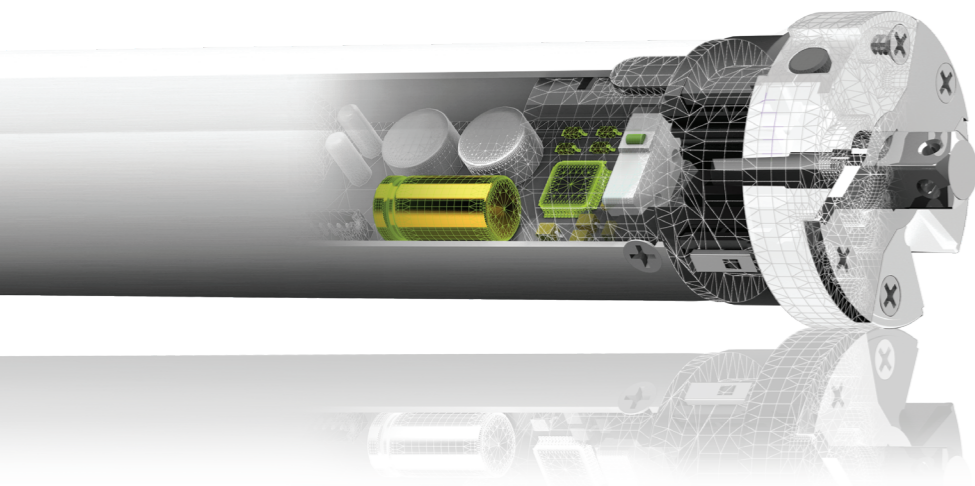

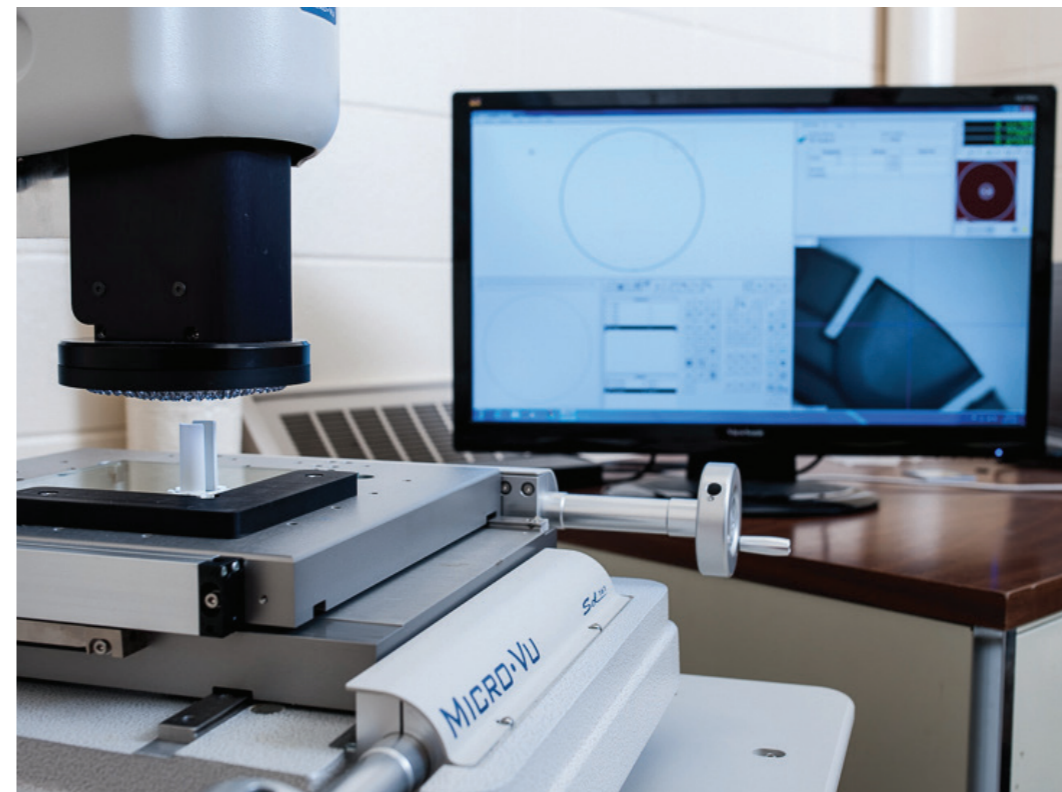

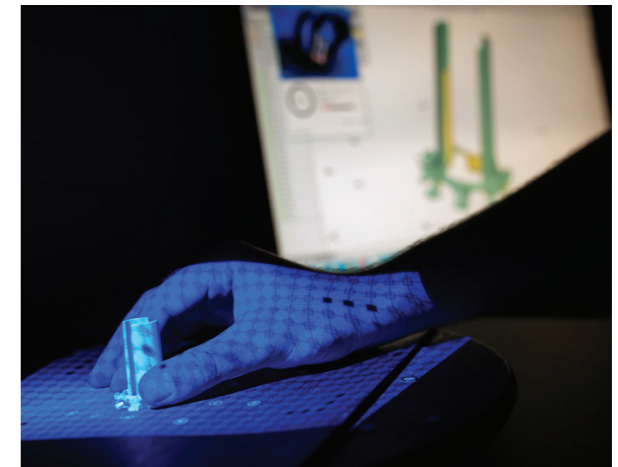

The Automate™ line has benefited significantly from Rollease Acmeda's commitment and approach to innovative design and calculated development.

A hardware system designed for motorisation

Quiet motors and finished shades

Low light gap bracketing

Rollease Acmeda motorised shade systems appear and perform at a best in class level because of a unified hardware and motorised design approach.

EXPERIENCE A NEW LEVEL OF CONTROL

The Automate Mobile App enables simple, intuitive control and system configuration from your smart phone. Advanced features like scheduling and remote access allow users to get the most out of their smart shades.

THE HEARTBEAT OF YOUR MOTORISED SHADES

The Automate PULSE hub provides the heartbeat of the Automate smart home experience.

With wi-fi built in, simply plug in where convenient and connect to the local wireless network. Automate shades can then be controlled from your smart phone or integrated within a whole-home control system.

SET UP TO 20 TIMERS

SET UP TO 20 SCENES

MANAGE UP TO 20 ROOMS

SETUP WIZARD

MANAGE UP TO 5 LOCATIONS

Voice Controlled Shades

Controlling your Automate shades is now more convenient than ever before with the new intelligent home assistants Alexa by Amazon & Google Home.

Automate Paradigm+ remote

Paradigm+ remote controls offer modern features including LCD displays, individual, group and ALL control and precision levelling, giving users complete control from an elegant hand held remote.

Available in single or 15 channels.

Automate awning sensors

Our solar powered wind, sun & rain sensor will naturally react to the elements to automatically open or close your awning, so you don't have to.

An intuitive motion sensor detects sudden movement and automatically goes into protection mode closing the awning.

Control your shades using your voice, automatic weather sensors or stylish remote control.

COMMUNICATE WITH CONFIDENCE

ARC™ communication protocol ensures Automate motorised shades are reliable, expansive, and easy to use... paving the way for the window coverings of tomorrow's smart home.

CLEVER COMMUNICATION

Automate Motorisation utilises a new Radio Frequency platform called Automate Radio Communication - ARC. The ARC communication protocol utilises a 433MHz radio frequency, well known for strong, reliable communication in the connected home devices space.

Automate ARC protocol also features bi-directional communications which empowers users and connected systems to experience shade control like never before.

BATTERY HEALTH STATUS

LIVE ANIMATED FEEDBACK

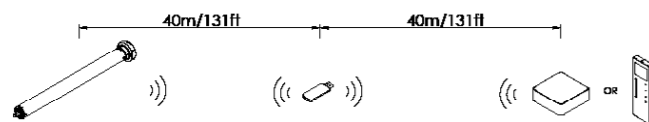

EFFICIENT PROGRAMMING

1 REMOTE FOR YOUR ARC™ MOTORS

ARC REPEATER

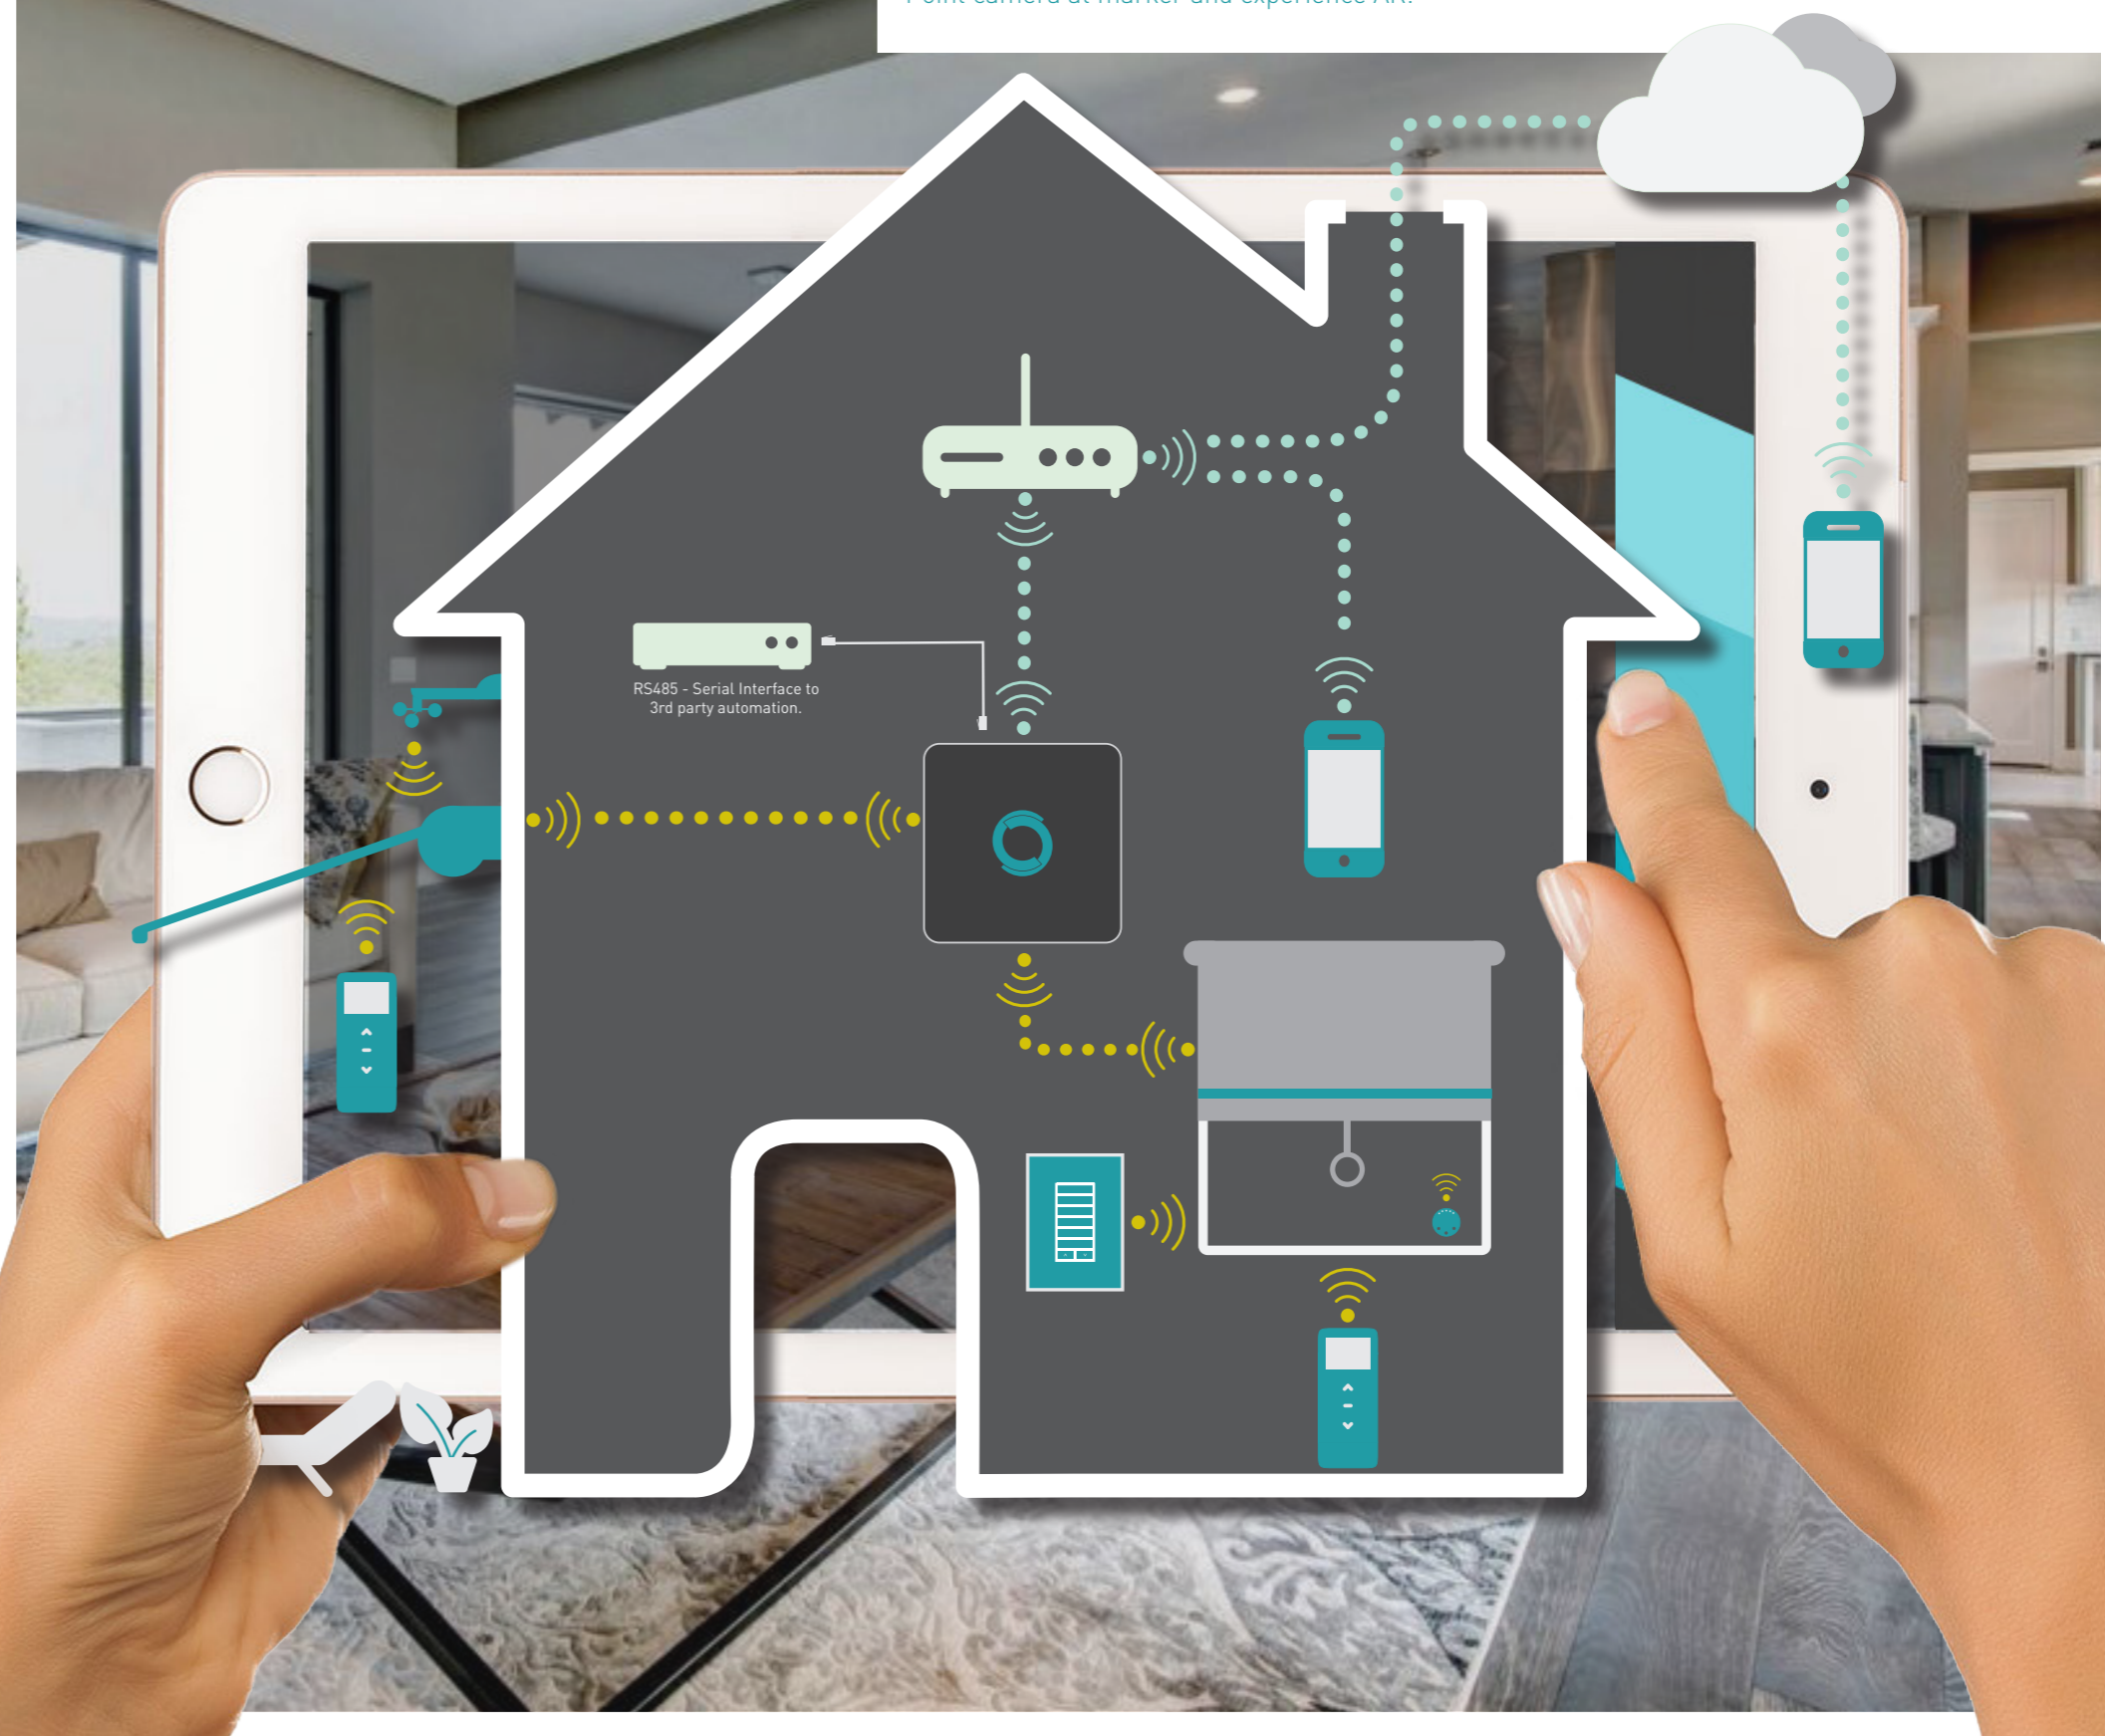

The Automate ARC repeater increases the wireless range between the remotes or the Automate pulse hub by 40m.

EXPERIENCE AUGMENTED REALITY

Download the Rollease Acmeda AR App from itunes or google play store.

Point camera at marker and experience AR.

MEET THE QUIET LI-ION OF THE PACK

The Q2.0 motor is a staggering 55% quieter when compared to other motors in its class.

OUR LI-IONS ARE THE LEADERS OF THE PACK

Automate's core motor line, Li-ion, utilises state of the art lithium ion battery technology integrated with the shades.

No wires for Easy Retrofit

Extended battery life with 500 expected up/down cycles per charge

Rechargeable from 12v wall charger

No bulky, external battery pack

BATTERY POWERED

LEVEL CONTROL

FAVOURITE POSITION

SELECTABLE RPM

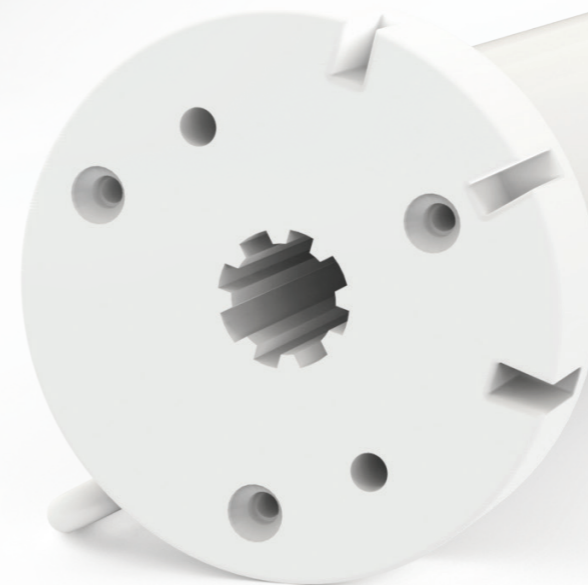

QUIET OPERATION

LOW-LIGHT SOLAR

Upgrade Li-ion motors to include Automate's industry leading low-light harvesting solar panel for a completely off-grid system that virtually never needs attention.

Li-ion 1.1Nm
25 mm,
Covers 95% of applications
with a 5.7Kg lifting capacity

Li-ion Q2.0Nm
28 mm, ~44 DB
Covers 100% of all single
shade applications

Li-ion 3.0Nm
35 mm,
Easy Link capability

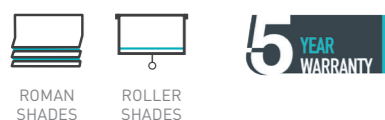

THE AUTOMATE RANGE

LITHIUM ION & WIRE-FREE SHADES

Teach your old home new tricks

Automate Li-ion battery powered motorised shades are a perfect retro-fit for existing homes or small commercial projects. Available in today's popular Roman and Roller shade applications, Li-ion powered motors require no electrical wiring, no external battery pack and no complicated installation.

AC WIRED INTERNAL & EXTERNAL SHADES

Power, when you need it

Automate AC powered motorised shades are a great choice for medium to large windows as well as large commercial projects. Our large FT motor features impact detection and fabric tensioning making it the perfect choice for external shades. With lifting capacities up to 4.2m x 4.2m and run times up to 4 minutes, Automate AC powered shades are fit for projects of any size.

AC WIRED AWNINGS

Design with daylight

The Automate EL A50 range provides a complete motorised solution for folding arm awnings, featuring a fabric self-tightening function that ensures a perfectly sealed cassette, which preserves fabric for a longer life span.

AC DRAPERY

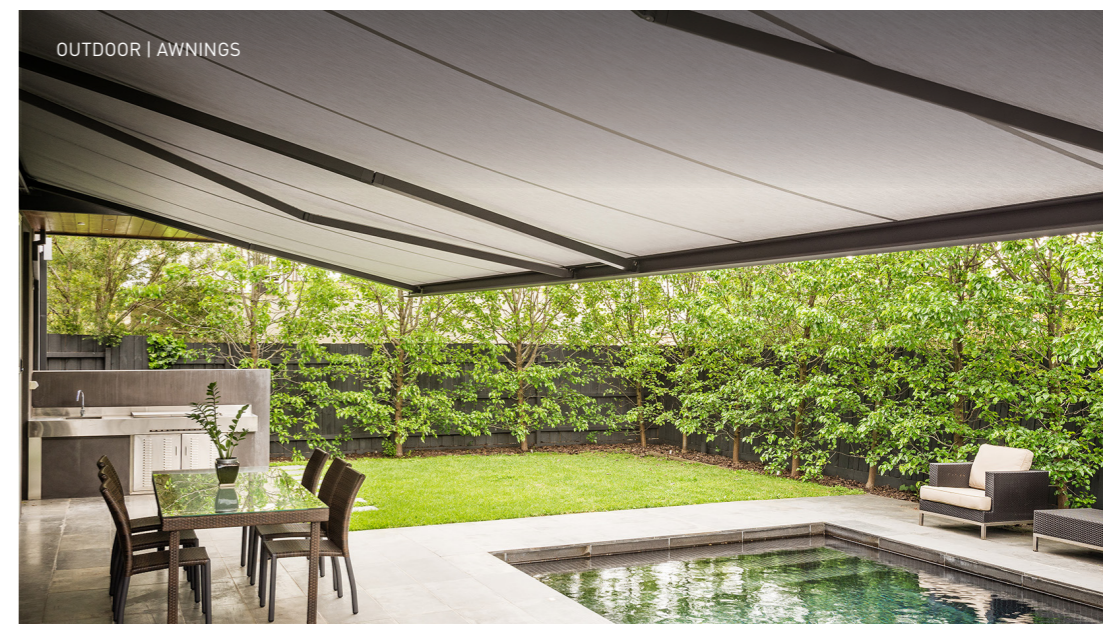

Drape your home in luxury

Automate motorised drapes are powered by AC line voltage, and can support draperies up to 50kg.

In addition, the drapery motor features an innovative Soft Touch technology, where you can automatically open or close your curtains with one soft touch.

RESIDENTIAL | AUTOMATE LI-ION

OUTDOOR | AWNINGS

HOSPITALITY | DRAPERY

CHERISH THE BRIGHTEST MOMENTS

The best window coverings balance fashion and function. They bring warmth to a living space, offer perspective into the world around, and keep us safe.

AUTOMATE shades eliminate a physical operating cord, creating a child and pet safe environment. They bring elements of comfort and convenience to the space we spend most of our lives. They let in the light we need, when we need it, and keep the rest of our lives private when we don't.
